DUAL POLE QCS2®
QUICK-CHANGE SOCKET

The only dual pole socket connection with superior corrosion protection!

Molded Socket Boot with Completely Sealed Inner Cavity

- Completely sealed for maximum protection against moisture and contaminant intrusion

Simple Socket Maintenance and Replacement with Offset Pins

- Quick and easy plug-in bulleted termination, no re-wiring
- Prevents electrical arcing from potentially causing damage

Flexible Boot Flange to Grip Non-Corrosive Socket Housing

- Flexible flange bends easily for quick installation and creates a moisture-proof barrier around socket

Dual Pole QCS2® Straight Back Kit

16-2237 - Kit, straight back, 48" harness, incl. dual pole QCS2® socket, stainless steel bracket, & 120 amp circuit breaker

16-2237-096 - Kit, straight back, 96" harness, incl. dual pole QCS2® socket, stainless steel bracket, & 120 amp circuit breaker

16-2237-144 - Kit, straight back, 144" harness, incl. dual pole QCS2® socket, stainless steel bracket, & 120 amp circuit breaker

Dual Pole QCS2® 6 O'clock Angled Position

16-2223 - 6 o'clock angled position, 48" blunt-cut cable, 2 ga., incl. dual pole QCS2® socket

16-2423 - 6 o'clock angled position, 48" blunt-cut cable, 4 ga., incl. dual pole QCS2® socket

Dual Pole QCS2® Straight Back

16-2233 - Straight back, 48" blunt-cut cable, 2 ga., incl. dual pole QCS2® socket

16-2433 - Straight back, 48" blunt-cut cable, 4 ga., incl. dual pole QCS2® socket

Replacement Socket

16-324 - 2-hole mount, offset solid brass pins, bullet termination

Mounting Bracket

15-791 - Stainless steel bracket, mounts Dual Pole QCS2® and 7-way socket

COMBINE WITH WEATHER-TITE™ M2 FOR ULTIMATE CORROSION PROTECTION!
