

WEATHER-TITE™ M2 TO SINGLE POLE LIFTGATE CABLE

For dual to single pole applications, featuring a dual pole weather-proof connection for corrosion prevention

Weather-proof Connection for Corrosion Prevention

- The WEATHER-TITE™ M2 dual pole plug is unbreakable, non-corrosive and completely molded to the electrical cable
- The WEATHER-TITE™ seal blocks moisture and contaminants from entering the electrical system through the coupled connection
- Cable guard sleeve enhances strain relief protection at the back of the plug for longer cable life

Heavy-duty Single Pole Connection

- Zinc die-cast housing provides added strength and durability

Quality Cable

- Provides excellent chemical and abrasion resistance and remains flexible from -82°F to 195°F (-63°C to 91°C)
- Exceptional recoil memory prevents sag avoiding cable damage from the deck plate

Liftgate Cable Part Numbers - Straight

Length	2 GA.	4 GA.
12'	25-2256	23-2256
15'	25-2276	23-2276

Liftgate Cable Part Numbers - Coiled

Length	2 GA.	4 GA.
12'	25-2357	23-2357
15'	25-2657	23-2657

Note: Phillips encourages dual pole charging applications when possible, as single pole charging does not provide an adequate ground.
