

QWIK-E®

QUICK-RELEASE

GLADHAND

- Trailer brakes are released up to 50% faster than with conventional methods
- Decreases brake drag
- Reduces the cost of vehicle ownership by increasing the service life of brake lining and pads

Straight Mount

12-206	Service, blue, 1/2" female pipe thread without filter screen
12-2061	Service, blue, 1/2" female pipe thread with filter screen
12-206B	Service, blue, 12-206, individually packaged, polybag

Trailer Mount

12-236	Service, blue, 3/8" female pipe thread bottom port
12-2361	Service, blue, 3/8" female pipe thread bottom port with filter screen
12-23617	Service, blue, 3/8" female pipe thread rear port with filter screen
12-2367	Service, blue, 3/8" female pipe thread rear port
12-236B	Service, blue, 12-236, individually packaged, polybag

- Incorporates quick release valve into gladhand
- Anodized housing for corrosion protection
- Self-tapping heat treated connector screws
- Cold rolled steel detent plate
- For use with ABS and NON-ABS brake systems
- Standard equipment on most OEM trailers
- For use on trailer service lines only
- Meets SAE J318 specifications

DECREASE IN BRAKE DRAG = INCREASE IN THE BRAKE LINING AND PAD SERVICE LIFE = A SAVINGS OF HUNDREDS TO THOUSANDS OF DOLLARS PER YEAR!

- Trailer brakes are released up to 50% faster than with conventional methods
- Decreases brake drag
- Reduces the cost of vehicle ownership by increasing the service life of brake lining and pads
- Reduces tire flat spots
- Improves response time making this excellent for 'Stop-N-Go' traffic
