SEALED

CONNECTORS FOR MULTIPLE WIRES

IN-LINE BUTT CONNECTOR FEATURES:

- Window ensures the wire is stripped the proper length and is fully seated to wire stop
- Allows for "daisy chain" by joining 3 wires in-line
- Active adhesive seals between multiple wires to prevent corrosion
- Tapered barrel has a uniform copper wall, making it easy to crimp with a strong termination
- Color-coded stripes identify wire gauge size to use and where to crimp the connector
- Crimp provides mechanical reliability for excellent conductivity
- Replaces temporary, unsealed Quick-Taps

CLOSED-END CONNECTOR FEATURES:

- Tubing has an active adhesive that seals between multiple wires and eliminates wire pull-out
- Closed-end connectors can replace wire nuts in environments where corrosion is a problem
