

**M2**  
CHARGE KIT

**PREMIUM BACK-OF-CAB CHARGING SYSTEM**  
**WEATHER-TITE™ M2 Cable with Cable Support**

The ideal solution for fast and easy set-up and best-in-class corrosion prevention for charging systems.

**Kit Includes:**

- 15', with 48" Lead WEATHER-TITE™ M2
- 20" QWIK-CHANGE™ Tracker Spring Kit with QWIK-CLAMP™ for Charging Cables

**Note:** Operates at 100 amp continuous capacity, 200 amp intermittent capacity

**Part No. 25-292769**  
**M2 Charge Kit - 2 Ga.**

**Part No. 23-292769**  
**M2 Charge Kit - 4 Ga.**

**WEATHER-TITE™ M2 Charging Cables**

- The WEATHER-TITE™ M2 dual pole plug is unbreakable, non-corrosive and completely molded to the electrical cable
- The red WEATHER-TITE™ seal blocks moisture and contaminants from entering the electrical system through the coupled connection
- Cable guard sleeve enhances strain relief protection for longer cable life
- Common standard connection works with any J3082 dual pole liftgate connection
- High performance cable jacketing remains flexible from -82°F and provides excellent recoil and abrasion resistance

**QWIK-CHANGE™ Tracker Spring Kit with QWIK-CLAMP™ for Charge Cables**

- 20" extra heavy-duty galvanized spring properly supports the weight of charging cables
- Large clip with wire gate provides quick and easy installation on tracker bar
- QWIK-CLAMP™ and insert are pre-installed separately on the cable for quick install onto spring
- Quick cable adjustments in seconds without the use of tools
- QWIK-CLAMP™ and insert are non-corrosive and UV resistant
