

M7 ELECTRICAL ASSEMBLY

Value with a name you can trust!

The M7, or Molded Z-way electrical assembly, combats against corrosion with features such as:

- Plugs that are unbreakable
- Plugs that are completely molded to the electrical cable

- The **M7**, or Molded Z-way electrical assembly, features plugs that are unbreakable and completely molded to the electrical cable to combat against the devastating effects of corrosion!
- Coiled jacketing is flexible from -87°F to 150°F (-66°C to 66°C)
- Straight jacketing is flexible from -40°F to 150°F (-40°C to 66°C)
- Good recoil memory, chemical and abrasion resistance
- For ABS and NON-ABS applications
- Plug meets SAE J560 standards

Coiled

1/8, 2/10 & 4/12 ga. ABS Applications

30-4327	12', coiled, with molded plugs
30-4627	15', coiled, with molded plugs
30-4927	15', with 48" lead, coiled, with molded plugs

Straight

1/8, 2/10 & 4/12 ga. ABS Applications

30-2057	12', straight, with molded plugs
30-2077	15', straight, with molded plugs
