

QCP™ (Quick-Connect Plug) Assemblies

At the first signs of corrosion replace the insert, not the entire plug

Replaceable Plug Insert

Made of glass filled nylon and replaceable in under just two minutes!

Molded Interior Plug

A durable PVC overmold seals inner wires and cable to lock out corrosion

*Also available in straight ABS LECTRAFLEX™

ABS LECTRACOIL™ Jacketing*
Excellent recoil memory chemical and abrasion resistance

Plug Housing
Unbreakable, non-corrosive housing that resists impact

Compression Cable Clamp Ring
Offers extra support to the housing

ABS LECTRACOIL™ with QCP™

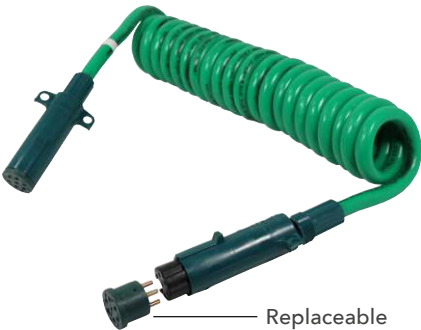

Replaceable Plug Insert

1/8, 2/10 & 4/12 ga.

30-9324	12', with QCP™
30-9624	15', with QCP™
30-9924	15', 48" lead, with QCP™
30-9954	20', with QCP™

- Recommended for ABS applications
- Flexible from -82°F to 195°F (-63°C to 91°C)
- Excellent recoil memory, chemical and abrasion resistance

ABS PERMACOIL™ with QCP™

Replaceable Plug Insert

1/8, 2/10 & 4/12 ga.

30-4324	12', with QCP™
30-4624	15', with QCP™
30-4924	15', 48" lead, with QCP™

- Recommended for ABS applications
- Flexible from -87°F to 150°F (-66°C to 66°C)
- Good recoil memory, chemical and abrasion resistance
