

# 360W Class 8 Kit

**AVAILABLE NOW**  
**PN: 79-92643**

Introducing a groundbreaking solar technology with patented flexibility and lightweight Mono cSi panels. These panels, **50% more durable than standard alternatives**, redefine reliability in renewable energy. The advanced technology not only saves fuel but also eliminates jump starts, extends battery life, and increases power to offset parasitic loads. Embrace a new era of efficient and sustainable energy solutions.

**Phillips' Solar 360W Class 8 Panel**

180W Panel (61.18 in x 27.13 in | 1554 x 689 mm)  
[Qty 2]

**Optimized TS30 Charge Controller with Fuse**

**Battery Cable 2.5' 8 AWG**

**Home Run Cable 50' 12 AWG**

## TECHNOLOGY

Industry-leading Power Output | Enhanced Performance Under all Light Conditions | Designed and Engineered in USA | Outstanding Aesthetics | Redundancy by Design | Robust Module Integrity and Performance Under Extreme Conditions | Military Grade Design, Materials and Approvals

## PRODUCT FEATURES

Peel & Stick Easy to Install Heavy Duty Solar Charger | Jump Start Avoidance | Battery Management Maintenance Free | Patented Design, Optimized for Maximum Performance in scattered light and extreme weather conditions with Integrated charge controller

## CUSTOMER BENEFITS

This kit can save fuel, reduce idle times, reduces IPU usage, effectively eliminate jump starts, extend battery life, increase reliability and increase power available to offset parasitic loads. It also provides drivers with the extra power to run full hotel loads reducing the number of auto-start features.
